\*AIR OPTIX® NIGHT & DAY® AQUA (lotrafilcon A) contact lenses: High oxygen transmissible lenses. Dk/t = 175 @ -3.00D. AIR OPTIX® AQUA (lotrafilcon B) and AIR OPTIX® AQUA MULTIFOCAL (lotrafilcon B) contact lenses: High oxygen transmissible lenses. Dk/t = 138 @ -3.00D. AIR OPTIX® for ASTIGMATISM (lotrafilcon B) contact lenses: High oxygen transmissible lenses. Dk/t = 108 @ -3.00D, -1.25D x 180. Other factors may impact eye health. \*\*Extended wear for up to 30 continuous nights, as prescribed by an eye care practitioner. †Eye exam may be required. Professional fees may apply. At participating offices. ††One-month refers to a recommended replacement schedule of up to 4 weeks as determined by the eye care practitioner. **Important information for AIR OPTIX® AQUA (lotrafilcon B), AIR OPTIX® AQUA MULTIFOCAL (lotrafilcon B) and AIR OPTIX® for ASTIGMATISM (lotrafilcon B) contact lenses:** For daily wear or extended wear: up to 6 nights for near/far-sightedness, presbyopia and/or astigmatism; Risk of serious eye problems (i.e., corneal ulcer) is greater for extended wear. In rare cases, loss of vision may result. Side effects like discomfort, mild burning or stinging may occur. **Important information for AIR OPTIX® NIGHT & DAY® AQUA (lotrafilcon A) contact lenses:** AIR OPTIX® NIGHT & DAY® AQUA lenses are indicated for vision correction for daily wear (worn only while awake) or extended wear (worn while awake and asleep) for up to 30 nights. **Relevant Warnings:** A corneal ulcer may develop rapidly and cause eye pain, redness or blurry vision as it progresses. If left untreated, a scar, and in rare cases loss of vision, may result. The risk of serious problems is greater for extended wear vs. daily wear and smoking increases this risk. A one-year post-market study found 0.18% (18 out of 10,000) of wearers developed a severe corneal infection, with 0.04% (4 out of 10,000) of wearers experiencing a permanent reduction in vision by two or more rows of letters on an eye chart. **Relevant Precautions:** Not everyone can wear for 30 nights. Approximately 80% of wearers can wear the lenses for extended wear. About two-thirds of wearers achieve the full 30 nights continuous wear. **Side Effects:** In clinical trials, approximately 3-5% of wearers experience at least one episode of infiltrative keratitis, a localized inflammation of the cornea which may be accompanied by mild to severe pain and may require the use of antibiotic eye drops for up to one week. Other less serious side effects were conjunctivitis, lid irritation or lens discomfort including dryness, mild burning or stinging. **Contraindications:** Contact lenses should not be worn if you have: eye infection or inflammation (redness and/or swelling); eye disease, injury or dryness that interferes with contact lens wear; systemic disease that may be affected by or impact lens wear; certain allergic conditions or using certain medications (ex. some eye medications). **Additional Information:** Lenses should be replaced every month. If removed before then, lenses should be cleaned and disinfected before wearing again. Always follow the eye care professional's recommended lens wear, care and replacement schedule. If you have questions, ask your eye care professional or contact CIBA VISION® at (800)-875-3001 or [airoptix.com](http://airoptix.com). **References:** 1. # Do you sleep in your contact lenses?

THE LENS YOU CAN **rest easy** IN.

AIR OPTIX® NIGHT & DAY®  
AQUA—FDA-approved  
for daily wear and up to  
30 nights continuous wear.\*\*

Enjoy the healthy, natural feeling of  
AIR OPTIX® NIGHT & DAY® AQUA contact  
lenses with TriComfort™ Technology.

#### RETAINS MOISTURE

Proprietary lens materials help  
minimize the rate of lens dehydration  
for comfort all day long.<sup>3</sup>

#### BREATHABILITY

High oxygen transmissibility allows  
more oxygen through the lens than  
traditional soft contact lenses<sup>4</sup> for  
white, healthy looking eyes.

#### RESISTS DEPOSITS

Proprietary plasma surface treatment  
resists deposits better than any  
available two-week or monthly  
replacement silicone hydrogel  
lens,<sup>5</sup> contributing to healthy and  
comfortable lens wear.

Whether you want to sleep in your  
contact lenses, need help reading the  
fine print, or have astigmatism, find  
the lens that's right for you at  
[airoptix.com](http://airoptix.com).

#### AIR OPTIX® AQUA contact lenses

Allows up to 5 times more oxygen through the lens  
than traditional soft contact lenses<sup>6</sup>—for healthy  
looking and healthy-feeling eyes.

#### AIR OPTIX® for ASTIGMATISM contact lenses

See clearly, comfortably and consistently. Just because  
you have astigmatism doesn't mean you have to deal  
with dryness, discomfort, redness and blurred vision.

#### AIR OPTIX® AQUA MULTIFOCAL contact lenses

Approaching or over the age of 40? Reading  
newspapers and menus at arm's length? These contact  
lenses offer you an ideal alternative to bifocals.

THE LENS YOU CAN *rest easy* IN.
