## The Problem:

### Chronic Dry Eye Syndrome

Approximately 40 million people suffer from Chronic Dry Eyes (CDE) in the United States alone, and many don't even realize it. Are your eyes sensitive to light, dry, itchy, gritty or blurry? Do you tear up frequently or have trouble seeing at night? If you answered yes to any of these questions you could have CDE. Let your eye doctor know immediately.

## The Solution:

### Bruder Eye Hydrating Compress

The Bruder Eye Hydrating Compress refreshes, rejuvenates and relieves dryness...simply and naturally! Using a Bruder Eye Hydrating Compress is a convenient and effective way to treat CDE. Place the Compress in a clean microwave for 20-30 seconds, then apply over your closed eyes for several minutes. The moist heat goes to work quickly to provide soothing relief, and it feels amazing.

## How the Compress works:

The secret is the patented technology. A warmed Bruder Eye Hydrating Compress improves oil gland production, stabilizes tear film and helps slow tear evaporation. Properly lubricated and hydrated eyes can expel bacteria and debris more efficiently to provide relief from dryness, itchiness and grittiness. The Bruder Eye Hydrating Compress, unlike other compresses, is washable, reusable and non-allergenic.

## The Compress helps to relieve dryness caused by:

- Computer use
- Age
- Hormonal changes
- Environmental factors
- Surgical procedures
- Certain medications
- Eye disorders
- Contact lens use
- Diseases (Arthritis, Diabetes and others)

Bruder Eye Hydrating Compress  
ITEM #34160

## Fast acting & Easy to use:

- Microwave activated
- Washable & reusable
- Convenient to apply
- Naturally hydrating
- One-piece design (No special covers required)

The Bruder Eye Hydrating Compress may be applied as often as needed and will not interfere with other prescribed or OTC medications. Use for mild to moderate dry eye discomfort. The Bruder Eye Compress (Item #34170), a single-eye compress, is also available for relieving painful styes.

## The Technology:

The Bruder Eye Hydrating Compress features patented MediBeads® technology. Water molecules are continuously absorbed from the air and stored inside the beads. When microwaved, the absorbed water is released as clean moist heat. There is no need to add water, no waiting and no mess.
