

Why Choose UltraHealth?

Healthy & Refreshing

UltraHealth is the only irregular cornea hybrid contact lens with highly breathable, healthy materials and an advanced lens design especially suited for patients with irregular cornea conditions.

UltraHealth corrects vision problems, is healthy for your eyes and delivers exceptional comfort, too.

Crystal Clear Vision

UltraHealth delivers vision benefits only available in hybrid contact lenses. The "rigid" (GP) material optimizes vision; while the soft skirt centers the lens over the cornea, providing enhanced stability and clarity.

All-Day Comfort

The soft silicone hydrogel material that surrounds the GP portion of the lens provides longer-lasting comfort for irregular cornea and keratoconus patients.

Long-Term Corneal Health

UltraHealth is made with materials that allow very high oxygen transmission. The lens design also promotes tear circulation throughout the day, which delivers even more oxygen to the eye.

Clear Vision & Comfort

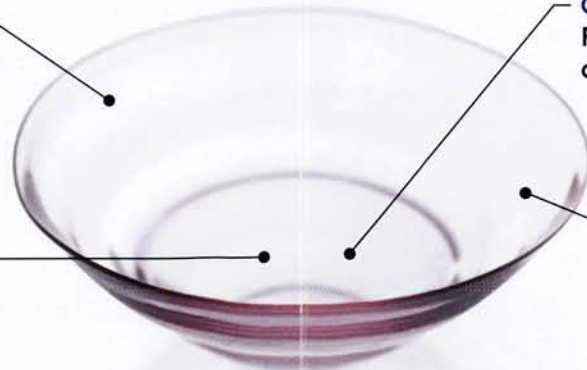

Healthy & Refreshing

Patented dual material design enables healthy flow of oxygen to the eye.

Stable & Predictable

Soft part of lens keeps it centered over the eye, keeping debris out and the lens in.

Sun Protection
Lens protects your eyes with a UV blocker

Crystal Clear Vision

Rigid center provides clear, crisp vision.

All-Day Comfort

Soft part of lens provides all-day comfort.

ULTRAHEALTH™

The new contact lens
for irregular corneas.

Reclaim your world.

SynergEyes

Now, you too can Reclaim Your World.

Reclaim Your Beautiful World!

How well do you see the world around you? With UltraHealth take your life back and see in a new way filled with clarity.

With UltraHealth see the fine points and pursue your dreams.

Reclaim Your Everyday World!

Is your vision a compromise? UltraHealth offers clear vision and all-day comfort, too.

Let UltraHealth comfort be there every day, all day.

Reclaim Your Active World!

Whether you ride a bike or like to run or play basketball, UltraHealth helps active people thrive. No more lenses popping out or shifting at just the wrong time. No more irritating dirt.

See if UltraHealth can keep up with you.
